CS2108

Course Project

Due date: 10th April 2025 (Friday) 2359hr

Semester 2, AY25/26, School of Computing, National University of Singapore

Submission instructions

For this project, you are supposed to submit your project file to CANVAS.

- *Create a folder using the following naming convention:*

  StudentNumber_StudentName_CS2108

  Example: A1234567_TomCruise_CS2108

- *Put your report (.pdf) and video (.mp4 or .mov) in the folder.*

- *Zip your folder. Name your zip file using the following convention:*

  StudentNumber_StudentName_CS2108.zip

  Note: Do not submit your file in .rar format

- *Submit the zip file in the "Project Submit Here" folder in CANVAS.*

******** IMPORTANT *********

If you use anything from internet or from others including your peers, you must acknowledge the source. If you fail to acknowledge the source or mislead people into thinking it is your own work, that constitutes plagiarism. As this is a substantial assignment comprising 20% of the total grade, students who are caught committing plagiarism or any other form of cheating will get a "F" grade for this course and will face other disciplinary actions.

Project Goals

1. To achieve deeper understanding of the concepts taught in CS2108.
2. To achieve strong proficiency in using one or more AI tools.

Project Requirements

1. Choose one or more topics/concepts you learned in CS2108 that you wish to achieve a deeper understanding.
2. Use one or more AI tools of your choice to create either or both of the following:
    a. Visualization of the concept
    b. Learning tool to understand the concept assuming the learners are undergraduate computing students.

Project Grading Criteria

1. Usefulness of your output towards teaching undergraduate students
2. Creativity expressed in the project
3. Proficiency in AI tool/tools demonstrated in the project

Project Submission Requirements

1. A report explaining your work.
2. A video demoing your work.

    Important:

    - **your report must not exceed 3 pages (not counting pictures, diagrams and tables), 12-point font of your choice**
    - **your video must not exceed 3 minutes**
